Liberty Chapel

Liberty Chapel, June 24.- Mrs. Russell Martin, of Lynchburg spent a part of her vacation with her parents, and brother, Mr. and Mrs. J. H. Reynolds and Mr. and Mrs. Marvin Reynolds.

Mr. and Mrs. W. T. Gunter and daughter, Bessie, visited Mr. and Mrs. Robert Emmert, of Newport News, several days last week.

John Lee Thornhill, of Cleveland, Ohio and his brother, Alfred, also visited in this home recently.

Miss Bessie Thornhill is spending some time in the home of her brother, John Lee Thornhill, in Cleveland, Ohio.

Mrs. Amine Bagby and Mrs. M. S. Garrette visited in the home of Mr. and Mrs. B. W. Scruggs, of Farmville Monday afternoon.

Lester Magann, of Farmville, is a visitor at McLevel Farm, the home of Mrs. Mollie S. Garrette.

Mr. and Mrs. Hunter Parrish and family, of Lynchburg, were Sunday guests of Mr. and Mrs. Wilson Scruggs.

Mrs. John Scruggs spent several days in Lynchburg recently.

Mr. and Mrs. W. S. Taylor, of Appomattox called in the home of Mrs. M. S. Garrette Sunday afternoon.

Marshall Garrette, of Staunton, spent the week-end with his home people.

Mr. and Mrs. Lawrence Hatcher and son, Harold, visited relatives in Lynchburg Saturday.

Far From Air Raids

On vacation here from Britain's air raids, Mrs. Pat MacLeod, left, and Miss Winifred Ashford, members of England's women's mechanized transport corps, marvel at New York's Empire State building.

Design Non-Spark Shoes For Defense Workers

ST. LOUIS.—Needs of munitions workers have led to the introduction of non-spark shoes and other new types of safety shoes adapted to the use of workers in defense industries.

Included among safety shoes exhibited by St. Louis shoe manufacturers at the recent sixth annual national shoe fair in Chicago, the non-spark shoes are put together with brass nails and are so constructed it is said that workers in powder plants and oil fields may wear them without fear that they will throw sparks and perhaps cause fire.

Another safety shoe geared to the needs of the day is the non-metallic electrician's shoes which may be worn in electrified mines without, it is claimed, transmitting current.

Appomattox is a growing town.

Finland says will be neutral in German-Russian war.

Japanese in Moscow called home.

ALKA-SELTZER is unusually effective in the relief of Headache because its analgesic (painrelieving content) is made more positive by alkaline buffers.

Alka-Seltzer being a combination of painrelieving and alkalizing ingredients has gained wide usage and popularity for the relief of Acid Indigestion, Cold Symptoms, "Morning After" misery and Muscular Pains. And be sure to try Alka-Seltzer for that tired feeling following hard work or strenuous exercise.

Ask your druggist.

Be Wise—Try Alka-Seltzer

Early Fossil Found Of Social Insects

Interesting Relic Bared by Experts in Utah.

WASHINGTON.—The comb of an 80,000,000-year-old wasp nest—the earliest known relic of the social insects on earth—has just been added to the collections of the Smithsonian institution.

The fossil, dating from the upper Cretaceous geological period when the great dinosaurs were coming to the end of their dominance, may mark a significant turning point in the history of life. At about this time, it is explained by Dr. Roland W. Brown of the United States geological survey who describes the specimen, there was a great evolutionary outburst of flowering plants that hitherto had occupied a minor place in the plant kingdom.

A few million years later, in the Eocene or "dawn" age, they were to attain the dominance in the plant kingdom that they have held ever since.

It now seems likely, Dr. Brown says, that blossoms and social insects, indispensable partners ever since, developed at essentially the same time. Presumably the blossom with its pollen came first, but it would have been of little advantage to the plant and probably would have soon disappeared had pollen-carrying insects not come into the world at the same time.

This is also the first fossil evidence of the development of "society" in the world—the partnership of great numbers of free individuals in building a home and providing a community livelihood. Ever since, in spite of the great social progress of man, this has been exemplified chiefly by the social insects.

The fossil was found by Dr. J B Reeside and Dr. C. E. Dobbin of the United States geological survey in southwestern Utah.

Navy Directory Warns Against Loose Words

WASHINGTON.—Officers and civilian workers of the navy department received new inter-office telephone directories that were sprinkled with mottoes concerning the evils of loose talking.

Each page of the directory had one of 10 slogans printed at its head in large type. They were:

Loose words may lose ships.
Beware of inquisitive friends.
Do you know who is listening?
Careless talk costs lives.
Walls have ears.
Do not repeat rumors.
Gossip is faster than radio.
Do not use telephone for secrets.
Keep your own counsel.
Idle words may reveal vital information.

The department has adopted envelopes which are white on the outside and brown on the inside. It is impossible to hold them up to the light and read their contents.

Germans 'Master' King's English for Der Tag

BERLIN.—Kerschn, schatt aop! Juh ahr mi prisenes.

No, that's not German. At least it isn't supposed to be. It's an excerpt from a little booklet now on sale in Germany—"German-English for the Armed Forces."

That phrase means, according to the booklet, "Caution, shut up! You are my prisoners."

The booklet seems to be intended to help Nazi soldiers in language difficulties if they invade Britain. Whether the British would understand some of the phonetic phrases is another matter.

If German soldiers don't understand what is said to them, they are told to say: "Prenaums disstinkelee."

Possibly the most useful phrase is: "Ai doon't noh matsch of thee Engglisch lengwidsch (I don't know much of the English language)."

Mother Bereaved by War Gives $150 to Soldiers

SOMEWHERE IN ENGLAND.—Bombardier Gloves and Gunner Phelps of the Royal artillery were standing in a street of this town. A limousine pulled up beside them, and a middle-aged, fashionably dressed woman leaned out and thrust a packet into Phelps' hand.

"Please take this, laddie, as a present for you and your friend," she said.

The machine sped away.

The surprised Phelps opened the packet. Inside were 150 £1 notes ($600) and this letter: "For a soldier serving his country. Today was my sons's birthday. He was killed early in this war, and my husband was killed in the last war. The money would have been used as a birthday present for my boy.

"Use it laddie, and God bless you.

"From a broken-hearted mother."

New Treatment Hailed For Severe Burn Cases

SHILLINGTON, DEL.—Discovery of a new treatment for severe burns has been announced at Johns Hopkins hospital.

The treatment uses a combination of sulfadiazine in spray form. Reports show that it has produced remarkable results.

In one instance, a five-year-old girl's life undoubtedly was saved by an emergency application of the new preparation.

Weather Men Needed in War

Long-Range Forecasting Is Vital Necessity as Shown in Europe.

STATE COLLEGE, PA. — Long-range weather forecasting, a proven ally of Adolf Hitler, is a vital necessity of nations at war, according to Dr. Helmut Landsberg, meteorologist at Pennsylvania State college.

Dr. Landsberg said the German system of weather forecasting, perfected by Dr. Franz Baur, will receive its greatest test when the Nazis prepare an invasion of England.

He said recent reports of Royal Air force planes bombing the resort town of Spa Hamburg, where the Baur observatory is located, is proof that Great Britain has realized the importance of this field of science to warfare. The Spa Hamburg observatory is the only military objective in the town, he said.

Strategic Importance.

"If this is true," Dr. Landsberg said, "it is another sign of the strategic importance of meteorology in present-day warfare and further indorsement of the effort being made in the United States to build up its forecasting techniques."

The program to improve weather forecasting in the United States has the indorsement of Dr. Landsberg, but he cautioned, its full importance will not be realized immediately. He said students given graduate scholarships in meteorology by the United States army air corps, for example, will not reach their peak efficiency until they have had long training and continuous experience in research work.

The Germans, said Dr. Landsberg, had a 10-year jump on other nations in establishing a long-range forecasting system in 1930. Now Germany is issuing 10-day weather forecasts. The United States weather bureaus only recently began issuing five-day forecasts.

Depend on Weather.

Dr. Landsberg was a student in Dr. Baur's observatory. He said the success of the German scientist was based upon long years of study and accumulation of records and adaptation of formulas gathered over the last several years.

"In 1940 warfare, instead of losing importance as have other natural obstacles, such as topographic barriers, weather has gained as a strategic element," he said. "Aerial and mechanized blitzkrieg depends on good weather.

"There should be no delay to foster research along this line for defense purposes. It is fortunate and consoling that any advance made in this respect will last beyond the times of struggle and will be useful scientific information for such peaceful pursuits as air traffic or farming."

Man's Stomach Removed, Digestion Is Unharmed

RICHMOND, VA.—It is possible to live without your stomach, sometimes more happily than with it, Dr. Robert L. Sanders of Memphis described before the Southeastern Surgical congress the case of a man suffering from cancer of the stomach who has been getting along fine without that organ for the last year.

As an illustration of the need for early diagnosis and prompt treatment, Dr. Sanders declared that the patient was found to have two entirely different types of cancer of the stomach, both of which had begun to spread. In an operation the entire stomach was removed and the upper opening to it was stitched directly to the small intestine.

The man returned to work and has been getting along without difficulty, Dr. Sanders declared. "He has to eat more frequently than other people and in smaller amounts, but he has no difficulty in digestion because digestion is a function of the intestines and the stomach is merely a natural concrete mixer to stir up the food you eat," Dr. Sanders said.

Even Manikins Problem For Nazi Chiefs in Paris

PARIS (Via Berlin)—Paris shopkeepers continue their funmaking at the expense of German food and clothing ration regulations. Here is the latest.

A prominent store on the Boulevard Des Italiens put two manikins in the window clad only in odds and ends.

One was adorned in collar, tie, waiter's dickey, suspenders and other inconsequential items.

The other was completely wrapped in lace in lieu of other male attire.

A placard said: "This is all we can sell you without permits."

Later the authorities covered the window and marked it, "censored."

Motorcycling Found Gaining in America

NEW YORK. — Motorcycling and motorcycle racing constitute the fastest growing sport in America, according to the American Motorcycle association.

"There are approximately 200,000 riders in the United States today and their number is growing at the rate of 8 per cent a year," it reports.

Spout Spring

Spout Spring, June 24.- Miss Virginia Johnston, of Lynchburg, is visiting in the home of Miss Emma Johnston.

Mrs. R. K. Lawson, of Spartansburg, S. C., is visiting relatives here. Mr. Lawson will join her for the week-end.

Mr. and Mrs. N. J. Webb and son, of Lynchburg spent the week-end with relatives here.

Mr. and Mrs. D. H. Cyrus visited in the home of Mrs. J. H. Davidson, of Lynchburg, Sunday.

Mr. and Mrs. Odell Howerton, and Mr. and Mrs. R. E. Cheatham visited friends at Crewe, Sunday.

Oris J. Webb, Jr., of Hopewell, visited in the home of his parents, Mr. and Mrs. O. J. Webb, last week.

Miss Vernelle Almond and Miss Mary Martin spent several day last week with friends and relatives in Lynchburg.

Misses June Johnston and Alice Robertson have returned home after spending a week at the Young People conference at Hampden-Sydney, where they got their diplomas for completing their course of study.

Private John D. Johnston, Jr. has returned to Fort Meade, Md., after spending ten days with his parents here.

Miss June Johnston was a visitor in the home of W. A. Shrader, of near Pamplin, Sunday.

Virginia Johnston, of Lynchburg, who has been visiting relatives here, has returned home.

Bethany Items

Bethany, June 24.- Mrs. Edward Moore, of Charlotte Court House, spent the week-end with her parents, Mr. and Mrs. P. O. Paulette.

Mr. and Mrs Wiley Richardson, of Lynchburg, spent the week-end here.

Miss Martha Harvey spent last week-end in Lynchburg visiting her cousin.

Private Otis Allen, of Fort Mead, spent the week-end with Mr. and Mrs. W. C. Paulette. Mr. and Mrs. Ellis Allen visited in the same home.

Those visiting in the home of Mr. and Mrs. P. O. Paulette recently were: Mr.and Mrs. C. I. Harvey, Miss Terrell Harvey, and Ryland Harvey, of Cullen, Mr. and Mrs. Sam Joe Paulette and Tommy Beale of Prospect, Private David Paulette, of Camp Croft, S. C., Misses Rachel, Lillian and Thelma Morris, Warran Morris, Madisonville, Misses Josie and Mary Harvey, of Appomattox.

Mr. and Mrs. Randolph Evans, of Newport News are visiting Mrs. Evans' parents, Mr. and Mrs. P. O. Paulette.

Miss Carolyn Paulette is visiting Mr. and Mrs. Edward Moore, at Charlotte Court House.

Misses Ora, Carolyn, Phyllis, Hazel and Mary Iva Paulette and Mrs. Randolph Evans visited Mrs. H. D. Baker of Evergreen Monday evening.

Mrs. Katie Allen is visiting her mother, Mrs. Elliott, who is ill.

PERSONAL

Beatrice — what did you tell the Sewing Circle that day? Was it about one baking powder being best for all kinds of recipes? Yes, that's what Beatrice said, and she was talking about Rumford. For with Rumford you can use any good recipe without worrying about how much baking powder to use. The amount the directions call for is the right amount to use of Rumford . . . Rumford contains no alum — never leaves a bitter taste. FREE. Send for new booklet, containing dozens of bright ideas to improve your baking. Address: Rumford Baking Powder, Box B Rumford, Rhode Island.

—and for you, too! Greyhound's huge fleet of Super-Coaches serves more of America's defense centers than any other travel system—just as it reaches more of America's great cities, mountain playgrounds, seaside vacation areas and national parks. With fares low enough to fit a private's pay—and convenience and comfort to suit a general—it's no wonder nearly fifty million passengers go Greyhound!

GREYHOUND LINES

OLDSMOBILE'S HYDRA-MATIC DRIVE

PUTS CLUTCH PEDAL ON THE BENCH!

Clutch Pedal Gets "Unconditional Release"— In an Olds Hydra-Matic, the conventional clutch is replaced by fluid coupling. This is made possible by use of a fully automatic transmission.

Gear Shifting Goes "Back To The Minors"— From first to second, second to third and third to fourth —all shifting is automatic in a Hydra-Matic Oldsmobile.

A CLUTCH pedal plays no part in the game, when you drive a Hydra-Matic Oldsmobile. Hydra-Matic Drive eliminates the clutch pedal *completely*—and it's the only drive in the world that does. Hydra-Matic eliminates manual gear shifting in the forward speeds, too—and that, again, is an exclusive Hydra-Matic feature.

Other devices have *names* that imply automatic driving—make *claims* to "no-clutch, no-shift" operation, under certain conditions. Yet, no matter what the others say, these facts remain undisputed: *Only* Hydra-Matic is *completely automatic!* Hydra-Matic steps up getaway, saves gasoline and enlivens all-round performance.

Try Hydra-Matic and you'll quickly conclude it's the *only* drive for *you!*

★ OPTIONAL AT EXTRA COST

New Chief Justice and New Associates

The President has elevated Harlan Fiske Stone (center) to be chief justice of the United States Supreme court, succeeding Charles Evans Hughes, retiring. At the same time the President nominated Attorney General Robert H. Jackson (left) and Sen. James F. Byrnes (D.) of South Carolina, to fill the two vacancies on the high court.

Locust View

Locust Grove, June 19.- Miss Margaret Hatcher is some better. The writer hopes she may soon be well again.

Those who recently spent the week-end in the home of Mr. and Mrs. Willie Beale, were Mr. and Mrs. Jim Meggingon, and son, Roy, Mrs. K. R. Hall, and Miss Iona Howell, of Norfolk, Mrs. Sam Meggin. son, of Pamplin, and Mr. and Mrs Riley Meggingon and daughter, Mrs. Nellie Beale, and Bennie Beale, visited in this home.

Miss Irene Garrett, of Lynchburg, recently visiter her parents, Mr. and Mrs. Spencer Garrett.

Mrs. Maude Abbitt spent Saturday night with her sister, Mrs. Natalie Robertson.

Mrs. Clarence Beale is a patient at the Virginia Baptist hospital.

Misses Ida Beale and Margaret Lovelace, of Lynchburg were supper guests recently of Mrs. Lula Beale.

The community was shocked to hear of the death of Sir. Jim Covington. Our hearts go out in sympathy to the family.

72% of Reich War Cost

Same Ration in U. S. Would Reach $57,600,000,000 in Year for Defense.

WASHINGTON.—Germany's wartime bill in the early months of 1941 is apparently running at the enormous annual rate of 72,000,000,000 marks, which is 72 per cent of the national income of 100,000,000,000 marks, the commerce department reports.

At the official German rate of exchange, the 72,000,000,000 marks would amount to $28,000,000,000 but because of the many types of German currency, no accurate translation into dollars is possible.

The last estimate of Great Britain's annual expenditures in the war was about $20,000,000,000. The United States expects to spend this year for all purposes, including defense, $17,500,000,000. If we were to devote as high a percentage of our expected national income for 1941 to defense as Germany is to her war effort, the bill would be $57,600,000,000.

Taxes Believed Rising.

The 72,000,000,000 marks Germany is expending for war purposes do not include the costs of occupation imposed upon Norway, Denmark, The Netherlands, Belgium and France, says H. Arnold Quirin of the finance division of the commerce department, who was responsible for the study. France alone pays occupation costs of 7,200,000,000 marks annually.

Detailed budget data have not been published since the beginning of the German rearmament program, but the trend of tax receipts and disclosed borrowings afford an indication of the Reich's increasing expenditures. In the second half of 1940 they were running at an annual rate of about 68,000,000,000 marks.

Assistant Finance Minister Fritz Reinhardt of Germany declared recently that all indications point to an increase in German tax revenues from an estimated 27,000,000,000 marks in the current fiscal year ending March 31 to 30,000,000,000 in 1941-42 and that the wartime contributions of German communes and other miscellaneous revenues will yield an additional 4,000,000,000.

Total Sum Available.

Dr. Reinhardt also placed the Reich's total disclosed indebtedness, including tax certificates, at 79,000,000,000 marks at the end of 1940. This represents an increase of 19,000,000,000 during the second half of 1940. If borrowings continue at this rate the total amount available from Reich sources for wartime expenditures will reach 72,000,000,000 marks in the coming year.

Though neither total actual expenditures nor those for military and non-military purposes are known, Reichsfuehrer Hitler stated at the beginning of the war that Germany had spent 90,000,000,000 marks in war preparation. This will be the total cost of the United States defense program, according to some computations, though others have placed it higher.

The total disclosed amount available for all German expenditures accumulated since April 1, 1933, reached 95,932,500,000 marks by June 30, 1939, and probably 103,000,000,000 by August 31, 1939. In the 18 months from July, 1939, to December, 1940, apparent expenditures were 83,345,000,000 marks, or nearly equal to the 86,875,000,000 in the six fiscal years from 1933 to 1939.

Germany's disclosed public debt at the end of 1940 was 79,000,000,000 marks.

Next Friday is JULY FOURTH!

Germany begins invasion of Russia two hours before giving warning.

Oakville News

Oakville, June 17.- The farmers of this vicinity are busy harvesting their barley and wheat crops. The long, dry spell during May injured the early gardens and also some of the crops. The State Lime Plant, Number Two, is nearing completion and will be ready for operation as soon as they get electricity.

There is an epidemic of measles in this section. Barbara, Richard, and William Smith, Belle Martin, David Martin, Kenneth Coleman and Harry Lucado's two children have all had it since school closed.

E. B. Martin and Carlton Moore have been on the sick list.

The yearly celebration of Mr. T. H. Martin's birthday was observed the past Sunday. There was a large crowd of relatives and friends present. Dinner was served in picnic style on the lawn. Every one present seemed to enjoy themselves, and all wished Mr. Martin many more happy birthdays.

Mr. and Mrs. Marshall Hunter went to York River on a fishing trip Monday. They brought back some very nice fish.

A bus load of people from Mt. Comfort Sunday School attended the rally day at the Methodist Orphanage at Richmond, Va., last Sunday. Some of the children of this vicinity are attending the vacation Bible school at Trinity this week.

Miss Mary Helen Johnston, who has been visiting a friend in Connecticutt, will be home Wednesday of this week.

Miss Ruby Martin attended commencement exercises of V. M. I., at Lexington, Va.

Robert Crews, of Clifton Forge, visited in the homes of E. R. Martin and O. W. Martin Tuesday.

Guests in the home of Mr. and Mrs. Berkley Rogers and Mrs. Daisy Rogers Sunday were Mr. and Mrs. Floyd Dinkins, Miss and Mrs. W. P. Cox, Novel Dinkins, Mr. and Mrs. Witt Gilliam and Mr. and Mrs. Harold and son, of Lynchburg.
